

## RALFS BATARAGS

A full stack generalist, technology-savvy individual with experience in software development, IT solutions, IT management for aviation and blockchain corporations. Proficient in creating tech products, with a focus on decentralized solutions. Known for being friendly and empathic.

### EMPLOYMENT HISTORY

- Chief Technical Officer | [Metria Network](#) 2022  
Tech team operations and management, blockchain developer recruitment, DeFi R&D solving the blockchain trilemma of decentralization, security, and scalability.
- Co-Founder CTO | [Blockchain Advisory Global](#) 2021 - 2022  
Inventing the strategy and vision for the company.  
Developing and implementing the company's tech services offered to customers.  
Building a team of developers, business, and technical staff.  
Collaborating with the other co-founder and the team.  
Overseeing the meetings, design, quality assurance testing, and leading the deployment of token and NFT-based campaigns.
- IT Solutions Manager | [airBaltic Corporation](#) 2018 - 2021  
Management and solutions creation in collaboration with IT team of business system administrators and data scientists, continuous development, and management of the customer loyalty system for airBaltic Club and PINS Rewards, with over 3 million registered users from the Baltic States and Finland. My role included overseeing websites, mobile app, backend, network, and business systems management, as well as managing partner integrations.
- IT Software and Integrations Specialist | [DPD Latvia](#) 2016 - 2018  
Prior to this, I worked as an IT Software and Integrations Specialist at DPD in Riga, where I was responsible for managing business partner API integrations and inhouse IT ops. I also worked closely with the team at [www.dpd.com](http://www.dpd.com) and helped to reshape the main shipment page.

- Computer Repairs Specialist | [NDD Computers](#) 2014 - 2018  
Working in reception and service. Describing and explaining to customers. Doing repairs for laptops, PCs, and other gadgets. Selling new hardware.
